

KEYSTONE Oil

MAINSRING LUBRICANT

RECOMMENDED BY CRAFTSMEN FOR OVER 40 YEARS

Keystone Mainspring Lubricants will last longer and perform better than any other product for the demanding requirements of clock and instrument mainsprings. Keystones outstanding film strength will allow smooth power for years without binding, rusting, or galling. It stays where it is put! Keystone lubricants contain NO graphite, moly or sulphur to contaminate movements.

"The best mainspring lube is Keystone's RV medium." *Mark Jesse Coleman, one of America's most respected clockmakers, authors and repairers. (Ref. "The Best of J.E. Coleman, Clockmaker" Page 263)*

EXTREME PRESSURES...
Keystone Mainspring Lubricant has been tested to withstand pressures of over 300,000 lbs. per square inch by Gardner-Desires. A microscopic film of this extraordinary lubricant will separate the coils of metal so that full power is distributed smoothly and completely.

ANTI-RUST...
Keystone Mainspring Lubricant prohibits rust by actually displacing moisture caused by insufficient drying or high humidity conditions.

OXIDATION INHIBITOR...
Keystone Mainspring Lubricant retains its body and lubricity longer and prohibits oxidation longer than any other lubricant.

HIGH TACKINESS...
Keystone Mainspring Lubricant will cling to metal and won't wear off under the rigorous motion and tremendous pressure of winding and unwinding. IT STAYS PUT!

AVAILABLE IN TWO GRADES...
MEDIUM—most popular grade for American 5 day 400 day, and most springs.
LIGHT—excellent for english, french, alarm, pocket watch, and all delicate mainsprings.

PROFESSIONALS ALSO USE AND RECOMMEND THESE FINE KEYSTONE LUBRICANTS...
KEYSTONE CLOCK PIVOT OIL...
The same fine quality as the KEYSTONE MAINSRING LUBRICANT. Recommended for use on all clock pivots.
KEYSTONE XL LUBE...
A light amber grease with outstanding lubricity. Excellent for use on all clocks, ratchets, cams, and lifting mechanisms.

MOEBIUS OILS and GREASES
Moebius Watch and Clock Oil has been acknowledged and acclaimed as the finest for generations. All Moebius products are developed, manufactured and tested in Switzerland. The large variety enables you to choose just the right oil or grease for your particular purpose. Natural Watch Oils, a mixture of neatsfoot and mineral oils, are satisfactory except that, after a period of time in contact with metals, they change chemically and form a gummy substance. Synthetic Oils have the same lubricating properties as natural oils, but will not change over a period of time, so they will not gum up, cause corrosion, become acidic, creep, or spread.

Moebius Watch Oil: 8000

General purpose for Chronometers & Watches all calibers
Up to 18L Outstanding Lubricant with minimal spreading
And low freezing

42.364 4 ml Bottle \$ 34.00 ea.

Moebius Quartz Watch Oil: 9000
42.365 2 ML BOTTLE \$ 32.75 ea.

Moebius Clock Oil #3A: 8030
For Clock, Alarm Clock and Meters not directly exposed to low winter temperatures
42.360 20 ml Bottle \$ 18.50 ea.

Moebius Grease: 8300
General purpose grease – well suited to the winding and setting parts of watches. Also for uncoiled mainsprings, as well as for clocks springs.

42.512 20 ml Bottle \$ 19.50 ea.

KEYSTONE PIVOT OIL & GREASE

CLOCK PIVOT OIL CPO.
A light oil of fine quality for pivots in all clocks.
Packaged in 2 oz. Glass bottles.

MHCP105 2 OZ Bottle oil \$ 6.00 ea.

XL LUBRICANT

A light grease for sliding surfaces, lifting mechanism, ratchet wheels And ect.

MHXL107 1 OZ Grease \$ 3.25 ea.
